ABOUT THE INSTITUTION

Sree Buddha College of Engineering, Pattoor, was established in the year 2002 and has attained autonomous status from 2024. The college commenced its academic journey with three undergraduate programs and has subsequently expanded to offer B.Tech., M.Tech. and Ph.D. programs across nine branches of Engineering and Technology. It is affiliated with APJ Abdul Kalam Technological University (KTU) and is approved by the All India Council for Technical Education (AICTE), New Delhi. Several B.Tech programs are accredited by the NBA, and the institution has been re-accredited by NAAC with A grade for a further period of five years from November 2024. In recent years, the institution has hosted several programs of national importance like, SMART INDIA HACKATHON 2019 through AICTE and remains committed to value-based education and holistic student development.

ABOUT THE DEPARTMENT

The Department of Computer Science & Engineering was established in the year 2022. Currently the department offers B.Tech. program in Computer Science & Engineering, Artificial Intelligence and Machine Learning, M.Tech. in Computer Science & Engineering, and is an approved research centre of the APJ Abdul Kalam Technological University of Kerala. The department is accredited by NBA since 2019. The

department has professional bodies of IEEE, Computer Society of India, Institution of Engineers (India), Indian Society of Technical Education and holds NASSCOM membership.

VISION

To create competent computer engineers with social commitment

MISSION

- Provide student-centric learning environment to create competent Computer Engineers
- Instigate research, innovation and entrepreneurship initiatives
- Impart skills and creative thinking ability to promote lifelong learning.

ABOUT THE CONFERENCE

Theme: Empowering Intelligent Systems through Smart Computing, Artificial Intelligence, and Data Engineering.

SCAD 2026 is an international forum dedicated to advanced research and innovation in Smart Computing, Artificial Intelligence, and Data Engineering. SCAD 2026 aims to foster collaboration across disciplines by addressing real-world challenges through smart and data-driven technologies. The event provides a platform for showcasing cutting-edge research, facilitating expert interactions, and promotes knowledge transfer between academia and industry. Through keynote addresses, paper presentations, and technical discussions. SCAD 2026 supports the development of next-generation computing solutions and strengthen the global research ecosystem.

Topics of Interest Include, but are not limited to:

- Smart Computing
- Generative AI
- Machine Learning
- Deep Learning
- Big Data Technologies

CALL FOR PAPERS

Prospective authors are invited to submit an abstract of about 350 words in length as per the IEEE format in the website.

All abstracts will be reviewed by the technical committee to assess the quality & relevance to the scope of the conference. All papers accepted for presentation in the conference will be published in the proceedings with ISBN number.
